

# Immunized Against Effective Prayer.

Praying for spiritual and scientific truth about abortion and immunizations and how that affects our standing in prayer.

Vaccines have been a part of our nation's health directives for generations. What if we found out that the very immunizations we were taking and giving our children were part of the abortion problem?

This issue is difficult, shocking, and prone to bring fear. Do not be afraid—but join us to reflect and pray God's Word.

Meditate on these:

[2 John 7-11](#)

*Pray for truth.*

[1 Corinthians 11:27-32](#)

*Pray for forgiveness.*

[1 Timothy 5:22](#)

*Pray for holiness.*

[2 Timothy 1:7](#)

*Pray for power, love, and sound mind.*

## What do immunizations have to do with prayer?

**Intercessors have been praying for decades for the curse of abortion to be broken over our nation.** Shocking news reports and testimonies are

revealing the dark and evil realities of this sin, as more people are rising up in prayer than ever before.

And now, new evidence is emerging regarding **aborted fetal tissue used to manufacture vaccinations that billions around the world have been inoculated with for decades.** More than likely, intercessors praying for the overturn of Roe v. Wade have, unknowingly, been vaccinated with this very tissue. This revelation could provide some answers to why our breakthrough has not yet come.

Our prayers concerning abortion have legal implications, not only in our nation, but in the High Court of heaven. While we have been petitioning our Righteous Judge on behalf of these murdered children, the accuser of the brethren has been acting as

prosecutor against the saints (*Zech 3:1-4*). By keeping us in the dark regarding the true source of these vaccinations, he has been charging us with complicity in abortion, thus disqualifying our spiritual authority in prayer. **Until we are properly informed and answer these charges brought against us, our prayers will have limited effect.**

---

**Our prayers concerning abortion have legal implications, not only in our nation, but in the High Court of heaven.**

---

Read this report and discern what the Holy Spirit is revealing concerning its connection to our cries for life. We must acknowledge these charges, and repent, asking for the blood of Jesus to cleanse us from the consequences of our involvement so that our petitions will be granted and this death sentence against our children overturned. *Continued on page 2.*

**Begin with a prayer for truth. Ask God for wisdom and to show you how you can contemplate this issue and take any necessary action as you read.**

**Pray John 7:18**

## Point to Prayerfully Consider...

*Is it appropriate for believers to make use of medicine created from the tissue of aborted fetuses?*

*If we are convicted to repent, should we love our neighbors as ourselves by educating and warning them to seek God prior to participating in the use of these products?*

## Vaccines began with taking life.

**Most vaccines commonly administered to both adults and children today contain cells derived from the lungs of an aborted girl (named WI-38 at 4 months gestation) and/or an aborted boy (named MRC-5 at 3 months gestation). It is likely that many Americans do not know that vaccines began with taking life.**

Since 1963, these two fetal cell lines have served as components in vaccines for Measles, Adenovirus, Diphtheria, Tetanus, Pertussis, Polio, Haemophilus influenza type b (HIB), Hepatitis A, Measles, Mumps and Rubella, Varicella (Chickenpox), Rabies, and Shingles. **Most people who have received these shots have also received the cellular remains of aborted babies WI-38 or MRC-5, or both.**

The cell lines of WI-38 & MRC-5 were extracted from their lungs, which would have otherwise held the breath of God. Dr. Stanley Plotkin discusses his participation regarding the use of 76 aborted children in a [video-taped deposition](#) on January 11, 2018.

This isn't just part of history – it is happening today. Why? The process of harvesting newly aborted children to create them is underway around the world, just as China announced in 2015 with the [case of WAL-VAX2](#) (girl, 3 months gestation).

**Dr. Leonard Hayflick of the Wistar Institute developed the technique to replicate human diploid cell lines by harvesting tissue of the girl who became known WI-38. Working in conjunction with a Swedish abortionist, her parents were carefully screened prior to the abortion to determine family health histories before removing her lungs then flying them across the Atlantic from Stockholm in the early 1960s. The Wistar Institute would not allow Dr. Hayflick to use her cells for vaccine development due to ethical concerns. As a result, Dr. Hayflick stole the cells and drove across the country to Stanford, CA, where he continued his work and began to sell the cell lines to researchers.**

**The World Health Organization paid Dr. Hayflick to travel around the world to help globally distribute the cell lines for vaccine development and educate countries on how they could abort their own babies and develop their own cell lines.**

*Continued on page 3*

*Prayer Journal Notes*

Pray for a godly response to the knowledge of how immunizations began and how we all may be complicit in using an innocent life. Ask God to show you how you can respond.

[Pray James 3:17-18](#)

## Points to Prayerfully Consider...

*Does participating in this activity put individuals, and more broadly the United States as a point of origination, at risk spiritually?*

*Should the Body of Christ repent swiftly and corporately for participating in utilizing these products, and not demanding ethical products over the last 56 years?*

## This process is still going on today.

See these videos of Dr. Hayflick [here](#) and [here](#) to explain how this was accomplished. Note that in these clips, Hayflick states, "Countries wanted their own strains (cell lines) for purposes of national pride, which is understandable. They are very easy to make following my recipe."

Their efforts were successful and MRC-5 was subsequently developed a few years later by Dr. Frank Perkins in the United Kingdom, who followed Dr. Hayflick's "recipe."

**In the mid-1970's, the United States government sued Dr. Hayflick for ownership of the cells of WI-38. The United States won the lawsuit, ramped up vaccine production afterwards, and continues to profit from them today.**

In 2016, a [United States Congressional Commission](#) studied the use of aborted fetal tissue in medical products and reported to the American public they were not used in vaccines. **This is not true.** A quick review of the [packet insert for the Measles, Mumps & Rubella \(MMR\) vaccine](#) on the U.S. Food and Drug Administration (FDA) website demonstrates that WI-38 is clearly listed in the second paragraph as an "ingredient." Meredith Wadman wrote this fact check article [of the Congressional report](#) for *Science Magazine* in agreement that current vaccines do still contain human diploid cell lines derived from the lungs of WI-38 and MRC-5. Here is the list of the [current CDC vaccine ingredients](#) as of June 2018.

The technique developed in America was taught to the nations. These cell lines have been used in "[billions upon billions of doses of vaccines.](#)"

**Our country's current vaccination program required at least 76 aborted children whose organs were harvested and tested until cell lines were produced that would replicate long after their deaths.**

What are the ramifications of an entire nation (and world) that has profited by health or monetarily on the purposeful demise of an innocent child? Are our hands free of blood because it was for the greater good? Does it soothe our conscience that this began long ago and what's done is done?

The doctrine of the shedding of innocent blood tells us that there is always a consequence for this taking of life. In Ezekiel 35:6, God says, "[B]ecause you did not hate bloodshed, therefore blood will pursue you." Bloodshed is pursuing this generation and will continue to do so until we hate abortion and remove it—wherever it occurs.

This revelation of the source of our immunizations may not be new information to scientists, but to the majority of us it is, and it is consequential. So, we know that in most of us, lies the tissue of aborted children. What do we do now? **Read on.**

Prayer Journal Notes

**Pray that this knowledge would cause a movement of repentance and a change in health products and laws. Let us call on the name of the Lord.**

**Pray Proverbs 21:15, Acts 2:21, and Exodus 34:6-7**

## A Prayer for Cleansing...

*Lord, I acknowledge that I may have participated in receiving or directing others to receive an immunization that contains fetal tissue from an aborted child. I ask for your forgiveness in my participation in using that innocent bloodshed to inoculate against disease. Cleanse me from any consequence or curse, and restore my standing before you by the cleansing power of the blood of Jesus Christ. Thank you for your forgiveness. AMEN.*

[Deuteronomy 28](#)

## Another piece of the pro-life movement.

It is time to incorporate this side of the abortion issue into our conversations as believers. If Abel's innocent blood cried out to the Lord from a field, what sound do these two children make before the Lord after being injected into almost every person on earth?

When God's people even unknowingly sinned, they were still held into account.

Now that we are aware, we can go about the business of recognizing and repenting of this national sin, our personal part of it, and restore right standing before the Father as we pray for the end of abortion in America.

His Word tells us that if we confess – whether corporately or individually, He is faithful and just to forgive because His steadfast love for all of us endures forever. ([1 Jn 1:9](#))

## How do we reconcile and move forward?

1. **STOP** Please pray that the abuse and sale of the remains of aborted children for medical products and research will cease.
2. **REPENT** Please pray for God to provide the gift of repentance to all who participated in the development of this practice from the researchers to the policy makers both in our country and globally.

3. **PROTECT** Please pray for state and federal lawmakers to restore and protect religious freedom so Americans can make all personal health decisions based upon what they discern as they seek the Lord in Spirit, in Truth and in His Holy Word.
4. **MOVE FORWARD** Pray for scientists to develop new, ethical treatments for diseases/disorders and for consumers to demand ethical alternatives. [Click here for a list of vaccines that do not contain fetal tissue.](#)

5. **CLEANSE** One day prior to New York enacting the late-term abortion law, a group of individuals stood in the gap for all 50 states by reading the entire Bible cover to cover as a cleansing representation. If you would like to stand in the gap for your state, learn more about this ongoing initiative [here](#). **Or learn more about the cleansing power of Christ's blood with our daily devotional on the blood of Christ by Derek Prince.
