THE PATH TO PRESIDENTIAL VICTORY

The Strategy. The Numbers. The Race for Electoral Votes.
A Special Report by Intercessors For America.

What do the numbers tell us?

Never mind the endless national polls reported on every news program, slicing and dicing the likely voters within a margin of error. Each campaign has their own closely-guarded proprietary poll system and results. This information, combined with the important numbers of the electoral college, provides each candidate's camp a sense of the likely path to victory. THIS determines where campaign time will be spent, ads will be placed, events will be scheduled—and the election will be won. Look at this graphical representation of the two paths of victory—for the Trump campaign, and for the Biden campaign. **Pray for each of the key states represented—pray that believers, voting biblical values, would make a large showing at the polls on Election Day. Pray that godly values would be victorious on Election Day. [Pray Deuteronomy 1:13.](#)**

The Swing States?

There are 5 states (electoral votes indicated) that hold the key to electoral victory. Which way these five states go could swing the entire election either way.

Current national polls as of the week of August 30th indicate:

Arizona

Biden 45%
Trump 47%

Texas

Biden 47%
Trump 48%

Florida

Biden 49%
Trump 47%

North Carolina

Biden 49%
Trump 47%

Georgia

Biden 49%
Trump 46%

Pray as you read: *Almighty God, we pray that we would elect leaders who fear God and who are trustworthy and hate every kind of dishonesty. ([Ex 18:21](#))*

Two paths to victory with upper Midwest states key to both campaigns

Trump Path to Victory

One of Four States Needed

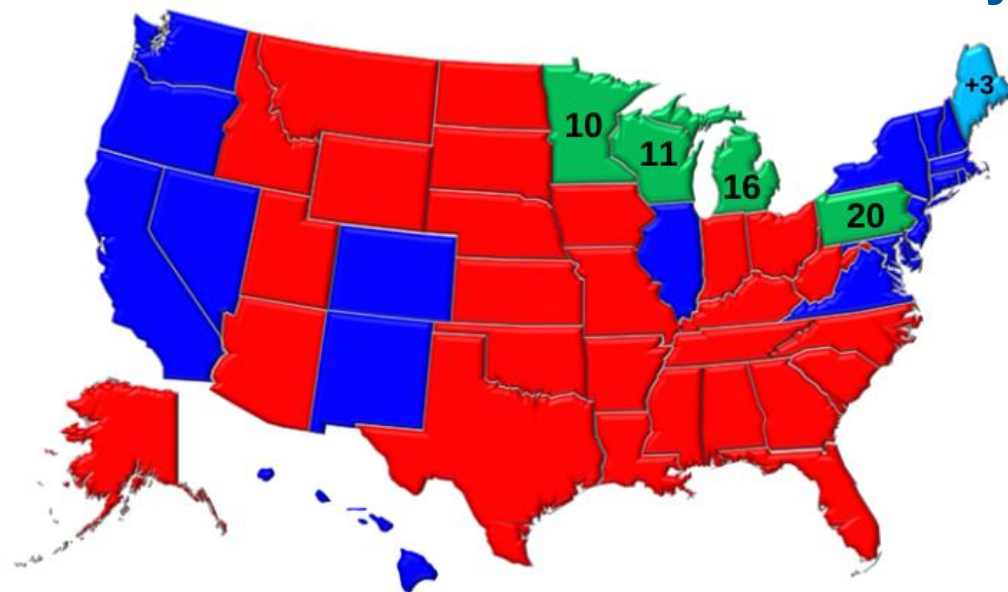

If President Trump secures all the red states pictured here, the Trump campaign will only have to win any ONE of the states in yellow for electoral college victory. There are four states that offer this opportunity to clinch victory: Minnesota, Wisconsin, Michigan or Pennsylvania (electoral votes in black).

You will likely see many visits from the Trump campaign to these four states.

Pray as you read: Lord God, we pray that we would elect leaders who understand that there is no authority except from You, and the authorities who exist have been put in place by You. May our elected leaders humbly submit to your lordship and leading. ([Rom 13:1](#))

PRAYER POINT: You can be in prayer for the key states listed on both maps. Pray that Christians in these states would seek to support candidates who align with biblical values, and that these believers would make it to the polls in record numbers on Election Day.

Biden Path to Victory

All Four States Needed, plus 3

If VP Biden secures all the blue states pictured here, he will only have to win ALL of the states in green and 3 of the electoral college votes in Maine for electoral college victory. The five states that hold the key to victory for the Biden campaign are: Maine, Minnesota, Wisconsin, Michigan, and Pennsylvania (electoral votes in white).

Vice President Biden's campaign will be out in full force in these green states.

Pray as you read: Father God, we pray that we would elect leaders who are wise, understanding, and respected. We pray that You would select the leaders that our nation, states, and communities need at this time. ([Dt 1:13](#))
