

# China at War with America

A special report prayer guide from Intercessors for America detailing China's involvement in U.S. elections.

## China has been quietly working behind the scenes to **sabotage** us.

China is at war with us.

This self-declared NONMILITARY war was launched 20 years ago in an effort to dominate the globe and bring down America. Their domination is biblical in proportion and demonic in effort. The religious freedoms championed by the U.S. have propelled the Gospel of Christ for centuries, protected Kingdom values and demonstrated to the world how “life, liberty and the pursuit of happiness” can be worked out.

China is using unconventional means to battle the U.S. With a smile, they are usurping global financial markets, committing cybertheft, carrying out intellectual property piracy, aggressively building their economy, buying up farmland in the U.S., acquiring strategic ports across the world, grabbing up land near U.S. military bases, spying and collecting data through technology such as TikTok, developing bioweapons like Covid, and surveilling the world.

Their actions have been devised to slowly and covertly disintegrate our culture and nation, as they position themselves to step into the leadership role that the U.S. has played globally. Make no mistake, they do not just want to leapfrog us for the sake of status, they want to dominate and occupy us.

Read on to unravel the tentacles of China in one of our most critical areas—elections. As you read, jot down points of prayer and what the Holy Spirit speaks to you about these issues. We have provided space for these prayer notes.

## Point of Prayer

### Ecclesiastes 12:14

*For God will bring every deed into judgment, including every hidden thing, whether it is good or evil.*

Pray that harmful connections and actions that are hidden would be discovered, and that effective action would be taken.

**In this first of IFA's three-part series on the dangers of China, we will cover the Chinese communist infiltration of American elections systems. You will learn about:**

- PollChief: China's door into U.S. elections
- Konnech, Inc.'s role
- Konnech's founder and his alternate identity
- CCP connections to Konnech that uphold communist China's ideals
- The tentacles of Konnech in election software
- How we pray about this massive scheme that is operating today

## IFA's 3-Part Series

### 1. American Elections Infiltrated

*Coming soon...*

### 2. China's Goals and Plans to Dominate

### 3. Chinese Methods and Practices to Spy and Overtake

# China at War with America: Elections

## 1 China's Door to U.S. Elections: **PollChief**

All across the nation, election precincts use a product called PollChief, marketed as an "election worker management software solution." It is used in many of the leading and largest municipalities as election management software. It bills itself as being an all-in-one solution for managing elections and the people running them.

**It is an extensive data collector and centralized management system that does the following:**

-**People Management** for all election workers and volunteers, including job screening, payroll, schedules, job assignments, and HR data.

-**Poll Management**, which includes election inspection records, screening of qualified selection points, allocation of election areas, stats of election item requirements, and all the coordination and management functions that coincide.

-**Site management**, which centralizes control of the dispatch of election goods, cargo, and coordinates transportation, deliveries, and all physical goods. Also includes schematics of all polling and voting locations as well as the building passcodes and equipment lists.

-**Service Management**, which operates a call center for voters and workers, generates call records, and provides general administrative back up services.

-**Overseas Election Management**, which coordinates and manages voter data, voter ID, and voter ballot tracking, and which facilitates reporting on analysis of functions, as well as facilitates ballot distribution through various means—both electronically and by mail.

All of the data harvested through the various means and collection points is centralized and stored in the PollChief system. How secure is this data?

## Where is **PollChief** used?

This is just a partial listing of the locations that have contracted to use the PollChief product in their election district.

- Adams County, Colorado
- Alachua County, Florida
- Alameda County, California
- Allen County, Indiana
- Brevard County, Florida
- Contra Costa County, California
- Detroit, Michigan
- Douglas County, Colorado
- Fairfax County, Virginia
- Hillsborough County, Florida
- Jefferson County, Missouri
- Johnson County, Kansas
- Leon County, Florida
- Los Angeles, California
- Loudoun County, Virginia
- The state of Montana
- Prince William County, Virginia
- Sedgwick County, Kansas
- St. Charles County, Missouri
- Travis County, Texas
- Washington, D.C.
- Military Voting Abroad

*Prayer Notes*

# China at War with America: Elections

## Behind PollChief is **Konnech, Inc.**

Who is the maker of this popular election software, and what do we know about the company? Konnech began in 2002 with a variety of proprietary software products and online platforms. Looking deeper into the roots of this and the leadership of this company raises a plethora of red flags.

## Konnech

**Headquarters:** East Lansing, Michigan

**Research and Development Offices:** Okemos, Michigan

**Election Products:** PollChief, ABVote

Prayer Points and People

## Eugene Yu

**Founder and President, Konnech**

**Board of Advisors Member, Votem**

*Graduate of Zhejiang University, China*

## Behind Konnech is Eugene Yu, aka **Jianwei Yu.**

Eugene Yu is his American name—he was originally named **Jianwei Yu** in China. Extensive research following trails online of companies, websites, emails, and patents uncovers that **the same election technology company operating in the U.S. and Australia as Konnech under Yu also operates as a Chinese Communist Party election company, Yulian Network, and Hongzheng Technology.** Yu's email address at Konnech (see DNS lookup below) was used in the registration of these two Chinese election company websites. Understand that any election company (or any Chinese company) operating in China is actually part of the Chinese state apparatus.

*This reverse lookup search uncovered the Chinese company domains registered under the admin.konnech.com address.*

Many other ties to other partnerships and iterations of companies in China creates a profile of someone very much engaged and entrenched in China. In fact, on the website Jinhua Red Date Software Co. featured on Yu's Chinese election website (yu-lian.cn) **Eugene Yu referred to his allegiance to "political tasks" first and business success second priority, calling China's President and CCP General Secretary Jiang Zemin "comrade."** (Zemin was China's President from 1993-2003 and the General Secretary of the Chinese Communist Party 1989-2002.)

## Prayer Notes

# China at War with America: Elections

## Many Konnech Engineers have Chinese CCP Roots

Eugene Yu is not the only direct Chinese connection at Konnech. Many of the engineers working on American and Australian election products such as PollChief, are actually located in China. "Yu has acknowledged that he uses a team of software developers in China for his election-related projects..." reports The West Australian in an October 2018 article. Many software engineers and critical employees at Konnech in Michigan are a product of Chinese state-run education systems—universities that indoctrinate communism in their teaching, and export their philosophies through the sending of Chinese students to American graduate programs and companies.

### Wang Xiang

Graduated from Nanjing University, China, 2012

Managed Chinese Students and Scholars Association (CSSA) website at University of New Mexico. (The CSSA is the official organization for the CCP to surveil and report on Chinese students abroad, overseen by the CCP's United Front Work Department.) ([linkedin](#))

**Xiang built and appears to manage PollChief, the main election product from Konnech.**

## A data backbone in China

In their yearlong research into Chinese election interference, **True the Vote** discovered that the *internet backbones* used by Konnech that run critical and secure election data are located not in America, but in China—backbones hosted by CCP state-owned telecom companies. A backbone is described as "principal data routes between large, strategically interconnected computer networks and core routers of the Internet." That means that sensitive data about voters, election processes, election workers, and more are **being run on CCP networks**, with an open door to China. In fact, according to Chinese law, anything that the state discovers on the internet is information or

intellectual property that is automatically owned by China.

**The question is, why would our government allow critical infrastructure to be run by a company with such blatant ties and open doors to China?**

*Binary Edge report shown at left for vote4fairfax, a Konnech URL owned by Eugene Yu.*

**This URL, Vote4fairfax, created and owned by Konnech as part of the software product for Fairfax County, Virginia, uses not an American backbone, but a Chinese backbone as shown by this Binary Edge report.**

# China at War with America: Elections

## Chinese developers, Chinese data storage, Chinese spying

So, not only are America's election software products being developed by a Chinese-rooted company in America, using Chinese software developers and engineers (located both in America and China), but the massive amounts of **data** collected by the election software, discovered through a Binary Edge report, is also being stored and accessible in China.

In the search for answers and evidence about the Chinese infiltration of U.S. elections, the systems analysts at True the Vote and OPSEC discovered something very disturbing. Looking at a digital "open backdoor" of a server from a Chinese company affiliated with Konnech, **they discovered a huge file of over 1.8 million names and data points, containing names and personal information of American election workers.** The information was not just a list of the workers, but a file of personal data including passwords, the IEMI number on their cellphone, banking information, children's names, and other private information.

This shocking discovery by True the Vote, showing obvious election espionage by the CCP, was promptly shared with the FBI office in Detroit where TTV was working. After the Detroit FBI team kicked the discovery up to the federal FBI offices, Catherine Engelbrecht and Gregg Phillips and several on the TTV team became the *target* of the investigation, instead of the CCP. Based on what we now know about some of the FBI operations such as Crossfire Hurricane, this twist is concerning.

***This whole issue needs prayer.***

### Point of Prayer

#### Psalm 7:15

*Whoever digs a hole and scoops it out falls into the pit they have made.*

Pray that those who are uncovering evil and harm would themselves be protected from harm.

Prayer Points and People

## Konnech owns patents used in Chinese elections

As reported by [Kanekoa](#) on Substack, a Yu-owned website is a provider of digital voting systems in China for Chinese elections. This is in partnership with other state-owned CCP companies Lenovo, Huawei, China Mobile, China Unicom, China Telecom and China's National People's Congress.

**Patents also connect Yu and Konnech to the CCP.** On April 18, 2012, former Konnech engineer Shao Guojun and Hongzheng Tech investor Yu Jun co-applied for a **U.S. patent with Konnech Inc.** and Eugene Yu. Kanekoa points out that **"Shao Guojun not only turns up on a 2012 patent with Eugene Yu and Konnech Inc. in the United States, but his name also appears on a Chinese voting technology patent transferred from Jinhua Konnech Inc. to Jinhua Hongzheng Technology Co. in 2015."** (at right)

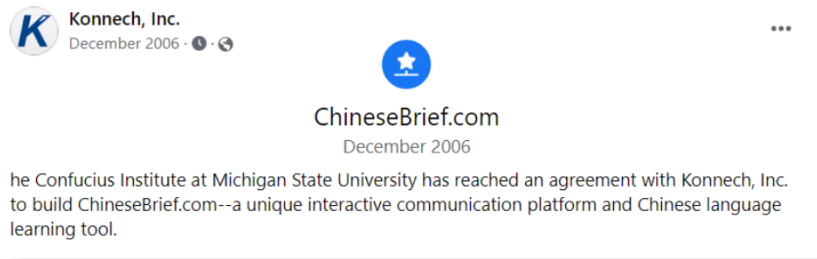

These suspicious CCP ties are concerning for *any* company operating in our nation, but for a company that is managing elections in a majority of metropolitan U.S. cities and the U.S. Department of Defense, **it is a national security emergency.**

# China at War with America: Elections

## Elections & Propaganda

We also discovered that Konnech, the same company that is running many of the large metropolitan American elections with their PollChief software product, also built another product called **ChineseBrief.com**. According to an archived webpage, ChineseBrief.com is a "unique interactive communication platform and Chinese language learning tool" for the **Confucius Institute**, the CCP propaganda organization embedded in universities and schools across our nation.

Confucius Institute signed an agreement with Konnech to produce the communications platform and language learning tool.

ChineseBrief.com announcement on Konnech's archived Facebook page, shown above.

## A pipeline of Chinese agents into American schools and companies, helped by Yu

### The Confucius Institutes and Classrooms

**Founded in 2004, there are over 9M students enrolled in 525 institutes spread across 146 countries.**

Considered a "soft war" against America, the Institutes exist as tentacles of Chinese CCP propaganda and control within American education universities and communities. These were started by the **Hanban**—the Ministry of Chinese Education. While many of the Confucius Institutes in America closed due to purposeful defunding during the Trump administration, there is still a massive presence of Chinese indoctrination on American college campuses and classrooms. According to the National Association of Scholars, 18 Confucius Institutes are still in operation undeterred, 28 have replaced their Confucius Institute name with a similar program and new name, and 58 still have unofficial relationships with their former Chinese partners. There are also 500 programs in elementary and secondary schools across the nation funded by Chinese organizations. The goal of these Confucius Institute groups is to propagate ideals of the Chinese Communist Party in a format that appears to be an exchange of cultural ideas and customs.

### Chinese United Front

#### An arm of the CCP that conducts overseas Chinese work

The Chinese United Front installs Chinese agents in America for the purpose of acting on behalf of the CCP government and their intelligence agencies. Many are fronted as cultural exchanges, embassy extensions, and businesses. One of the organizations affiliated with United Front is the **Chinese Students and Scholars Associations** (CSSA) which operates with money directly from the Chinese government and takes orders from the Chinese Embassies or consulates for political activity or operation. China actively recruits for its spy networks—especially in technology. In 2020, a Chinese consulate in Houston was closed down by the U.S. under suspicion of operating as a spy hub.

Prayer Notes

# China at War with America: Elections

## Tentacles of Konnech

The tentacles of Konnech and its founder Eugene Yu reach into many other avenues in our nation. Konnech developed a software product called ABVote—developed by the same team of Konnech's Chinese software engineers. This product was sold in 2016 to a company called **Votem, which marketed and sold the ABVote product as their own.** In fact, Konnech's Eugene Yu is on **Votem's Board of Advisors.** **Votem uses blockchain technology** for security. Blockchain is "a peer-to-peer decentralized distributed ledger technology that makes the records of any digital asset transparent and unchangeable," according to the **Blockchain Council.** Blockchain is not owned or managed by anyone. Incidentally, it is the same technology that is used for cryptocurrency. While we have no concerning information about **Votem's other products** listed below, the tentacles of China continue to reach into other areas.

### Votem

Headquarters in Cleveland, Ohio

Founder and President: Pete Martin

Products: Mobile Mark, FastPass Voting, FastCast, Accessible Voting, Hybrid Print Elections

World's leading blockchain security voting company

Konnech Founder and President Eugene Yu sits on the **Votem Advisory Board**

Purchased ABVote, a product designed by the Chinese-engineered company Konnech, Inc.

## Embedded in our own government's processes

Konnech has procured contracts with the Department of Defense as shown in this contract, at right. What kind of access is given to Konnech as they service this account? We know that data on the server found in China held personal information of election workers.

What happens to the information about our military members and foreign service personnel who are being served by Konnech for overseas voting? Will this information be treated the same way—stored on Chinese servers and left open to theft and access? What else is on the agenda for a company with allegiance to the Chinese Communist Party and its ideals? What are, to quote Eugene Yu, "political tasks first" and business success a second priority?

## Point of Prayer

### Romans 1:18

*For the wrath of God is revealed from heaven against all ungodliness and unrighteousness of men, who by their unrighteousness suppress the truth.*

Pray for all hidden ties to China to be revealed. Pray for discernment for our leaders who forge contracts and partnerships with organizations and companies that can harm us.

# China at War with America: Elections

## So, why is China a **danger** to the U.S.?

As we mentioned in the title page, China is at war with us, and many Americans just don't know it. China's actions have been devised to slowly and covertly disintegrate our culture and nation, so that China can replace the U.S. as the global leader. Make no mistake, they do not just want to leapfrog us for the sake of status, they want to dominate. Occupy us. Elections are just one avenue that China is using to infiltrate us. Manipulate us. De-secure us. But there are many red flags that can't possibly go unnoticed by those who are tasked with securing and leading our nation.

What should concern us is that so many in our government have looked away from the red flags for the short-term high of cheap production and manufacturing. All the while, the noose around our neck is tightening. American manufacturing is struggling. The bulk of products you find on the shelves are made in China. Every *Shark Tank* episode shows hungry entrepreneurs dying to make a deal to produce their goods "off-shore" at a greatly reduced cost. We are addicted—and it is killing us.

American elections in the grasp of the Chinese gives our communist enemies the power to potentially manipulate data, alter outcomes, and disrupt the process, and anything else they have in their plans—our backdoors are wide open. This is why we pray and take action. The future of our republic and our free elections is at stake.

This is part one of a three-part series about China's satanic war with America. As a communist nation, China is anti-God. The evidence is seen in the persecution of the Christians in China and in adherence to the Marxist/Maoist doctrine that replaces the devotion to and worship of God with allegiance and devotion to the party and state. The satanic war China is waging is occurring in both in the natural and in the spiritual. So, we too must recognize that the battle is to be fought on both fronts.

Gather intercessory intelligence about this issue so you do not fall prey to the deception in our nation with regard to China. This will also help you pray with insight. Pray about the spirits behind this issue. Pray for those on these lists, and ask the Holy Spirit for insight also on how to pray.

6. Prayer Points and People

## Pray about those *creating or allowing* **toxic** ties to China

Pray that any plans to subvert election integrity in our nation would be thwarted. Pray that election officials would clearly see any security risks with companies providing services. Pray that the CCP would be stopped from infiltrating our elections. Pray that the "soft avenues" for influencing our nation, the hidden ways of harming our nation, would stop.

**Eugene Yu**  
Konnech, Inc.

**Xi Jinping**  
President of China

**Gao Qing**  
U.S. Confucius Institute

### Point of Prayer

**Psalm 55:23**

*But you, God, will bring down the wicked into the pit of decay; the bloodthirsty and deceitful will not live out half their days. But as for me, I trust in you.*

Pray for those who enable and facilitate evil. We pray that either they would be changed by the blood of Christ or removed from their role.

## Pray for those *exposing* these **toxic** ties to China

There ARE brave people researching, writing, and pointing out to all who will listen the dangers that China poses. Pray for protection for those unveiling the truth about this issue. It is dangerous to pull the cover back on wrongdoing. Pray for continued guidance and wisdom as they research, share, expose. Pray that plans to censor or harm them would be ineffective. Pray that the evidence and information they discover would be welcomed by those in our government whose job it is to protect us from our enemies.

## Point of Prayer

**Pray Psalm 91:3-4**

*Surely he will save you from the fowler's snare and from the deadly pestilence. He will cover you with his feathers, and under his wings you will find refuge; his faithfulness will be your shield and rampart.*

Pray for the protection of those seeking to unmask evildoers and to unveil the hidden plans to harm, and who are risking their lives to do so. Pray for divine connections as they seek to alert those who can help.

## Prayer Notes

# China at War with America: Elections

## Don the weapons for the **battle**.

We know there are anti-God, antichrist spirits behind communism. So this battle is not only about computer hacking, data stealing, and election tampering, but also the larger spiritual battle at play in our nation and the world. Because of this, the stakes are immensely high, and the way we fight is not just with legislation and regulations, but with the spiritual weapons God has given us in the armor outlined in Ephesians 6:10-17 below.

*Finally, be strong in the Lord and in his mighty power. **Put on the full armor of God**, so that you can take your stand against the devil's schemes. For our struggle is not against flesh and blood, but against the rulers, against the authorities, against the powers of this dark world and against the spiritual forces of evil in the heavenly realms. Therefore put on the full armor of God, so that when the day of evil comes, you may be able to stand your ground, and after you have done everything, to stand. Stand firm then, with the **belt of truth** buckled around your waist, with the **breastplate of righteousness** in place, and with your feet fitted with the readiness that comes from the **gospel of peace**. In addition to all this, take up the **shield of faith**, with which you can extinguish all the flaming arrows of the evil one. Take the **helmet of salvation** and the **sword of the Spirit**, which is the word of God.*
